As a leading tailor-made tour operator, we create every trip individually for you, and this itinerary is just an example of what's possible. This means the itinerary choices you make will all impact the final price of the holiday. The price is based on travelling outside high season and taking economy flights. We include most fees and charges, but on occasion, some specific itinerary inclusions will also require additional fees to be paid locally whilst you are on your trip. These include certain tourist taxes, resort fees and one-way car rental charges. Once we've built your itinerary, we'll confirm these fees with you and your travel agent before you book. Our trips are either ATOL or ABTOT protected.
